IMPLEMENTATION OF E-GOVERNANCE IN AREAS OF OPERATION

S.No.	Area of E-Governance	Software	Page
1	Administration	CAMU	1
2	Finance and Accounts	CAMU, TALLY	3
3	Student Admission and Support	CAMU	4
4	Examination	CAMU	6

1. ADMINISTRATION:

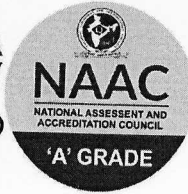

The administration tool (CAMU) is designed and developed by Octoze Technologies, a company based in Chennai, India offering business solutions for education. Camu is an enterprise scale campus management solution developed on the latest open-source technologies for both web and mobile platform targeting specific roles in a campus. Camu is a next step in for campus management driven by mobility and collaboration. The CAMU software is implemented at immediate availability of data in required formats to ease the work of staff and management and increase transparency and accountability in administration.

PACKAGE HIGHLIGHTS-

1. Collaborative Learning backed by Governance
2. Content creation in a few clicks
3. Collaboration enhances communication
4. Access, Create and Share Faster
5. An ingenuity called integration
6. Virtual Classroom
7. Integrated SIS and LMS
8. Outcome based Education.

BENEFITS OF CAMU SOFTWARE

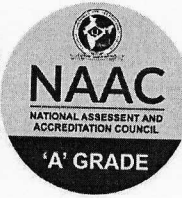

CAMU software helps in managing the entire system from academics to administration in a hassle-free manner. It provides a easy way to enrolment of students, monitoring the attendance of both students and faculty, maintain timetables, sessional and final marks entry, sending messages to students and parents regarding marks, fee dues, etc and any academic information. It provides better communication and benefit students providing virtual classes.

3. STUDENT ADMISSION AND SUPPORT

CAMU is digital tool helping the educational institution to manage the student enrolment process very easy. It lets the admission team capture student inquiries, check their eligibility, follow-up, collect documents and complete the application process digitally.

The admission module consists of the following important sub-modules.

- Admission
- Roll Number Allocation
- View Admissions
- Details of the Admissions

CAMU LIBRARY-

CAMU is well equipped with all the features required for scalable library management system used to maintain the record of the library. The software stores all the data regarding issues and returns of books borrowed by students and faculty with respective submission dates, searching titles, journals and other library reports. Manual record burden on the librarian is reduced by the use of CAMU software tool.

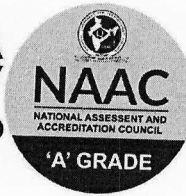

The screenshot displays the CAMU Library Management System interface. The top navigation bar includes the institution's name, a search bar, and user information. The main content area features a search form with fields for ISBN, Accession No., Author, Title, Keywords, and Subject Code. Below the search form is a table with columns for ISBN10, Accession No., Title, Author, Current Stock, and AVAILABLE STOCK. A single book record is visible in the table.

ISBN10	Accession No.	Title	Author	Current Stock	AVAILABLE STOCK
17958	17958	A TEXT BOOK OF ENGINEERING PHYSI...	D THIRUPATHI NAIDU	1	1

4. EXAMINATION

CAMU Software tool provides very easy access to track the details of examinations including student internal and external marks, student backlog reports, result analysis, toppers reports etc. All sub-modules of the examinations are not visible to students. The permissions for each role are assigned by the software admin.

The examination module consists of the following sub-modules-

- Exam Management
- Exam configuration
- Grade System
- Exam Subjects
- Manage Examinations
- CCE Setup
- Seat Allocation
- E-Score Upload
